space**

designed to fit your needs

McAvoy Multi Space range is the easily transportable answer to your temporary accommodation needs. Internally, the units can be fitted out for use from ticket kiosks to offices, temporary kitchens to toilet units. Choose from a full range of standards units, designed to suit your needs, available in a range of sizes to fit the most taxing of space limitations.

design and manufacturing excellence

Designed to fit your needs

We have over 30 years' knowledge in design, engineering, manufacturing and on-site construction. We continue to invest heavily in design skills, computer aided design technology, product and process development, and engineering.

Our focus on equipping our factories and training our people keeps us at the leading-edge in off-site construction techniques and methodologies.

In addition to our quality designed standard range, our dedicated team of research and design engineers ensures us the flexibility and capability to respond rapidly to the specific needs of our individual customers.

All buildings can be designed and manufactured to meet all building control requirements.

Manufacturing Excellence

McAvoy Multi Space is manufactured in a quality environment within a 34,000 sq ft purpose built, state of the art, manufacturing base.

Lean manufacturing principles enables our production management team to ensure the delivery of superior products of consistent quality, and maximum productivity, in reduced lead times from order to delivery.

All buildings are managed stringently by quality procedures set out in ISO 9001:2000.

Committed to seeking to provide the highest standards of Health, Safety and Welfare for all, we strive to keep ahead of the current Health & Safety requirements.

Ranging in size from 10' x 8' to 40' x 14', McAvoy Multi Space buildings are easily relocated and adapted to your changing requirements. Buildings can be single or doubled stacked, and linked to provide a larger continuous complex, allowing you to make the most of the space you have. All finishes can be tailored to meet your exact needs in terms of functionality, comfort and aesthetics.

internal flexibility

Offices

A fast, efficient, cost effective solution for your office accommodation needs, with office available open planned, partitioned or as combination layouts as standard.

Toilets

Portable, re-locatable, quick and easy to install through a simple plumbed connection on site, standard ranges are available for both male and female occupancy, or combinations of both. Internal finishes are available to suit to specific users environments, whether construction site staff, office staff or VIP event visitors.

Security & Ticket Offices

The smart, professional looking solution for your event, site or business entrance, for both short and long term needs. Standard offices are available with sliding service windows and fitted counters.

Hospitality & Sales Suites

For that event, trade fair show, or sales & marketing suite, these units provide a professional, comfortable environment to entertain guests and set up displays. Available in a range of standard designs based specifically on your hospitality and sales needs, units can also be fitted out to your exact requirements.

Sleeper & Diner Units

Instant, portable dining and overnight sleeping perfect for catering for staff at your event, onsite, or "on set". Fully equipped kitchen facilities, and comfortable sleeping environment complete with toilet, basin and shower en-suite – providing you "at home facilities" instantly.

Bespoke

Responding to our customers needs has always been a priority at The McAvoy Group and versatility in designing and delivering units to exact requirements by qualified engineers and production managers is our forte.

Transport and Installation

We have our own transport fleet that will provide an efficient service to deliver your new building or unit. Our experienced transport co-ordinating team will handle the logistics and planning as part of the streamlined off-site solutions process.

Our vehicles are fitted with Hiab heavy lift cranes, capable of handling and positioning units of up to 12.5 metres.

Drivers are equipped with the required safety gear and extensive operational training, such as the CITB Plant Operators Safety Awareness course. They are also accredited with up to date safety training.

McAvoy Multi Space is part of the McAvoy Group which has over thirty years experience in manufacturing fast-track modular & portable buildings. The knowledge, technical expertise and construction techniques which we have pioneered, makes us the first choice for robustly engineered, steel framed products which have unrivalled structural integrity and security offerings. As a long established innovator and market leader in the off-site construction industry, we have the track record, the quality systems and the experienced personnel to give you peace of mind to focus on your own area of business.
