welfare unit

designed for
ultimate comfort
on site

the complete all-in-one welfare solution

McAvoy Safe Space Welfare range is the ideal solution for servicing your staff working on-site. The complete range provides your employees with ideal areas to refresh, wash and dine during their working day. This range surpasses all expectations in terms of versatility, flexibility, security and value, as well as maintaining a manageable, health & safety compliant site.

Secure, vandal-proof start up that provides you with the complete all-in-one welfare solution. Complete with fully integrated toilet facilities and built-in generator meaning no need for mains access on your site.

Within the standard welfare range, these units are partitioned into separate areas such as, a fully-fitted comfortable and practical canteen to cater for your employees, an additional tool room to store tools safely and securely, a warm and pleasant office area, or a convenient and spacious drying room equipped with heaters and benches, laid out for leaving clothing, work uniforms and PPE to dry out after a hard days work.
